

Transportation

Streets and Highways

Specialties:

- Streets and roadway design
- Civil, utility, and drainage
- Toll roads
- Grade separations
- Expressways
- Bridges & overcrossings
- State and federal highways
- Urban arterial

DRC Services

- Transportation planning
- Design-build
- Seismic analysis
- Highway and bridge design
- Environmental documentation
- Feasibility/concept studies
- Value engineering
- Construction management
- Traffic engineering & traffic modeling

Mass Transit

Specialties:

- Commuter rail
- High-speed rail
- Light rail
- Bus rapid transit
- Trolley
- Freight rail
- Street cars
- Fleet maintenance facilities

DRC Services

- Planning
- Environmental documentation
- Design
- Public involvement
- Program management
- Management consulting
- Feasibility studies
- Alternatives analysis
- Design-build
- Value engineering
- Construction management
- Acquisition management

D R Consultants & Designers, Inc.

915 Wilshire Blvd, Suite 1725
Los Angeles, CA 90017

Ports and Harbors

Specialties:

- Waterfront beautification
- Pedestrian, bicycle, and street improvements
- Container terminals
- Liquid and dry bulk terminals
- General cargo and multi-purpose berths
- Shipyards and dry docks
- Quays, wharfs, and jetties
- Naval shore facilities
- Marinas and small harbors
- Fishing harbors

DRC Services

- Program/project management
- Design and engineering
- Transportation/traffic studies
- Marine design
- Document control
- Value engineering
- Construction management
- Constructability reviews

Transportation Engineering

*Built on Integrity,
Driven by Innovation*

Planning:

Involving DRC's **Technical Evaluation Team** during the initial planning phase provides the technical direction to ensure delivering a project of the **highest quality** and **maximum value**

Design:

DRC's complete project understanding and thought-out approach consistently produce clear, concise work plans that result in our **low percentage** of **change orders**.

Construction Management:

DRC's comprehensive and well-defined bid documents invite quality contractors for competitive bids. Our on-site engineer quickly resolves RFIs, **saving time** and **money**.

Project Management:

Involving the client in developing a Project Management Plan, project controls and scheduled milestones consistently deliver projects that **exceed** our **client's** expectations.

Program Management:

Extensive experience managing multi-firm teams, defining roles and responsibilities clearly, offers continuous communication and zero duplication of effort.
